

Waynflash 115
Liquid Flash Rust Inhibitor

General Features:

- Nitrite Free
- Aqueous Additive
- Compatible With Aqueous Paint Systems
- No Adverse Effect on Gloss in Resulting Coating
- Can be Post Added, or at Any Time During the Paint Formulation Process
- Excellent Performance on a Variety of Metal Substrates
- Infinite Shelf Life

Characterized by:

- Effective at Low Loading
- Effective In Can or Flash Rust
- No Effect on In Can Stability
- Low Odor

Recommendations:

- For Aqueous Paint Systems
- For In Can or Flash Rust Inhibition
- Substrates: Steel, Galvanized Steel, and Galvalume
